Calculators
```

This area of our website service provides a number of easy to use calculators. Use these to help check and plan your finances and financial decisions. We will be extending our range of calculators over the coming months so make sure you mark this page as a favourite.

### Loan calculator

How much interest will you pay on a loan? Use this calculator to look at the impact of different interest rates over varying time periods.

### Payslip calculator

Are you paying the correct amount of PAYE? Check you are having the correct amount of tax deducted from your income.

### VAT calculator

Calculate the VAT to be paid where VAT is included in the amount entered at the standard rate of 17.5%

### Stamp duty calculator

Stamp duty rates range from 0.5 per cent to 4 per cent. Calculate the liability to stamp taxes on the purchase of shares or property.

### Savings calculator

Find out how much you will accumulate if you save regularly? How much will those savings be worth taking the effect of inflation into account?

### Business start up calculator

Thinking of going into business? Do you have enough finance? Please use this calculator to estimate your business start up costs.

### Millionaire calculator

Inspired by the popular TV show, this calculator gives you the opportunity to work out when you will become a millionaire.

### Inheritance tax calculator

How much inheritance tax might your estate be liable to on the occasion of your death? Good tax planning can reduce this liability.

### Break-even calculator

Will you breakeven? This calculator will provide the sales figure you need in order to break even, i.e. obtain a net profit figure of zero.

### Fuel cost calculator

With the fluctuating/increasing cost of fuel, our calculator shows your expenditure over a year, and includes a link to fuel saving strategies.

### Gross profit calculator

What is your gross profit? This calculator shows the sales you need in order to break even, i.e. obtain a net profit figure of zero

### Vehicle benefit calculator

What is the cost of your company car including the car benefit, and, if applicable, the car fuel benefit. Also, find out the cost of your van benefit.
